CURRENT SCIENCE

Volume 127 Number 3

10 August 2024

262 In this issue

EDITORIAL

- 263 Hydrology in the Anthropocene: the Indian context**
Rajiv Sinha and Sharad K. Jain

CORRESPONDENCE

- 265 By-catch to multi cuisine: saleable breaks for eels in India**
P. Kodeeswaran, A. Kathirvelpandian, T. T. Ajith Kumar and U. K. Sarkar

NEWS

- 266 Current Science Reports**
- 270 The 2023 Plasma Prizes by the Association of Asia Pacific Physical Societies**
Sameen Ahmed Khan
- 271 National conference on antimicrobial resistance held in Dehradun, Uttarakhand**
Rajendra Dobhal, Bindu Dey and Pawan Sharma

OPINION

- 273 Indiscriminate pesticide use for fishing in the River Ganga raises alarm**
Ajoy Saha, Archisman Ray, Vikas Kumar, Kausik Mondal and Basanta Kumar Das
- 275 Time to move to higher gears for better disaster management**
K. Lenin Babu and K. B. Ramappa

COMMENTARY

- 278 Attribution in substance abuse and dependence: does it matter?**
Vasudha Singh and Geeta Singh
- 279 Transforming earth science and engineering: the power of artificial intelligence, data science and machine learning**
R. Sajeev

SCIENTIFIC CORRESPONDENCE

- 281 Cause of ground subsidence in Machhlipatnam region**
Shubham Rajewar, Akarsh Asoka, K. M. Sreejith, Ritesh Agrawal, N. Puviarasan, K. C. Sai Krishnan, Mudit Mathur, Kalpna Gahalaut and Vineet K. Gahalaut

GENERAL ARTICLE

- 284 Will the global focus on methane reduction detract from the global attempts to reduce carbon dioxide emissions?**
J. R. Bhatt

REVIEW ARTICLE

- 290 Mitigation of environmental pollution using cellulose-based natural rubber latex composites**
Amisha Verma and Sanjiv Arora

RESEARCH ARTICLES

- 297 Optimizing the impact of spray characteristics of hybrid drone on spray deposition in cotton crops**
P. Rajesh, A. P. Mohankumar, R. Kavitha, B. Suthakar and K. Ganesan

- 307 Empirical evidence for shifting cultivation's role in indigenous food sovereignty in Manipur, Northeast India**
Dileep Kumar Pandey, Francis Q. Brearley, Chabungbam Victoria Devi, Nongthombam Devachandra and Mark Haominthang Lungdim
- 315 Challenges and dynamics of athaphum: a longitudinal study of Loktak lake in northeast India**
Stutee Gupta, T. Dharmaraj and K. Mruthyunjaya Reddy
- 322 Complete mitochondrial genome profile of Randall's threadfin bream, *Nemipterus randalli* and its phylogenetic analysis**
Neenu Raj, Sandhya Sukumaran, Lakshmi P. Mukundan, Anjaly Jose, Sujitha Mary, K. Nisha and A. Gopalakrishnan
- 333 Evaluation of farmers' contentment with climate resilient agricultural technologies in Telangana, India**
Boda Mahesh Naik, A. K. Singh, Saikat Maji, P. Venkatesan and Rohit Shelar
- 340 Prediction of drought – risk zones in Tamil Nadu using historical and global climate model data**
B. Santhoshkumar, N. K. Sathyamoorthy, V. Geethalakshmi, Ga Dheebakaran, K. Boomiraj, N. Manikandan and M. Selva Kumar
- 352 Evaluating environmental and remote sensing factors in theileriosis risk prediction for bovine in Kerala, India: navigating post-flood climate dynamics**
Kuralayanapalya Puttahonnappa Suresh, Siju Susan Jacob, Pinaki Prasad Sengupta, Tarushree Bari, Dikshitha Jagadish, Paramanandham Krishnamoorthy and Sharanagouda Shiddanagouda Patil

RESEARCH COMMUNICATION

- 359 Invasive plant in an anthropogenic disturbed and a community protected forest and their means as bio-resources**
Khikeya Semy, M. R. Singh and Maongkala Walling

BOOK REVIEWS

- 364 Youth and Shaping India's Future – M. S. Swaminathan Way.** N. Parasuraman; reviewed by P. C. Kesavan
- 365 Parasite-Faunas of Jammu, Kashmir and Ladakh (Indian Himalayas): Diversity, Impact & Importance.** Ramesh Chander Bhagat; reviewed by Khurshid A. Tariq

PERSONAL NEWS

- 367 Peter Higgs (1929–2024),** Rohini M. Godbole
- 369 M. V. S. Valiathan (1934–2024),** Subhash C. Lakhotia, Siddharth Lakhotia and Kishor Patwardhan

- ◀ **COVER.** Wheel of congrid eel genus *Ariosoma* spp. collected from the Indian waters. See page 265.
