OPINION

517 KVKs at 50: nurturing the needs and aspirations of rural communities through tailored intervention?

Dileep Kumar Pandey and Souvik Ghosh

518 Drinking water quality standards and implementation

Mohit Nangia

COMMENTARY

520 From combined stress to climate resilience: harnessing the power of a knowledge resource

Bharat Maitraya, Prachi Pandey and Muthappa Senthil-Kumar

GENERAL ARTICLE

523 Rapid urbanization – need for retaining gomalas as green spaces in the urban environment

H. Paramesh

REVIEW ARTICLE

527 Municipal solid waste – transforming waste to wealth in a sustainable manner

Suwendu Kumar Dash, Artatrana Mishra and Himanshu Bhusan Sahu

RESEARCH ARTICLES

537 Composite materials for supercapacitor electrodes utilizing polypyrrole nanotubes, reduced graphene oxides and metal–organic framework

Rudolf Kiefer, Irina Sapurina, Constantin Bubulinca, Lukas Munster, Ahmad Reshad Delawary, Nikola Bugarova, Matej Mičušík, Maria Omastova, Natalia E. Kazantseva, Petr Saha and Quoc Bao Le

544 Chronic exposure to sodium arsenite alters the expression of renin–angiotensin system, apoptosis and oxidative stress markers in Wistar rat

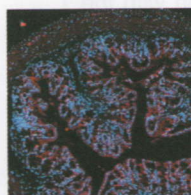

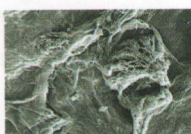

Astha Mathur, Navneet Kumar, Suresh Kumar Bunker and Placheril J. John

552 *Lactobacillus plantarum* for improving the symptoms of type-2 diabetic neuropathy

Yuan Chen, Fei Feng, Tailin Xu, Qian Zhao, Qi Kang, Yalin Lan, Meng Yu and Chengyan Jiang

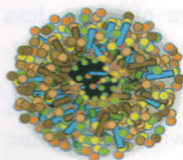

560 Perspective forward enhancement in boundaries of satellite image via BO-TDyWT for precise delineation and accurate measurement

M. Prabu, N. R. Shanker and K. Srinivasan

572 Framework for eForest fire management in the shifting cultivation-dominated landscape of Meghalaya, North East India, using remote sensing and GIS

Kasturi Chakraborty, Dhruval Bhavsar, Suraj Kumar Swain, Siddharth Bhuyan, Harish Chaudhary, Jakesh Mohapatra, Praveen Kumar, Balajied Lyngdoh, Joydeep Dey, Brandon Rynjah, Nilay Nishant and K. K. Sarma

◀ **581 Aerobic granular sludge with granular activated carbon for enhanced biological phosphate removal from domestic wastewater**

M. Sarvajith and Y. V. Nancharaiah

591 Mechanisms of agricultural scale affecting greenhouse gas emissions

Y. Yin, F. M. Xi, L. F. Bing and J. Y. Wang

598 Comparative study of QuEChERS methods for monitoring pesticides in milk using GC-MS/MS

Naresh Kumar, Nancy Talwar, Rajan Sharma, H. V. Raghu, Prashant Goel and Namita Ashish Singh

605 Hydrological response of two adjoining subtropical catchments – Iiril and Thoubal of the Manipur river basin in the Indian Himalayan Region

Victoria Ningthoujam and Ngangbam Romeji

RESEARCH COMMUNICATION

617 Relict Neoproterozoic silico-carbonatite from Elagiri alkaline complex, Southern Granulite Terrane, India

Jyotisanakar Ray, Qiong-Yan Yang, Liangshu Shu, M. Santosh, Anindita Dey, Biswajit Ghosh, Payel Dey, Sohini Ganguly and Sarmistha Mukhopadhyay

624 Conservational significance of the Upper Hanthana secondary forest in the Central Province of Sri Lanka based on avifaunal diversity and endemism

Sandun Bandara and Chaminda S. Wijesundara

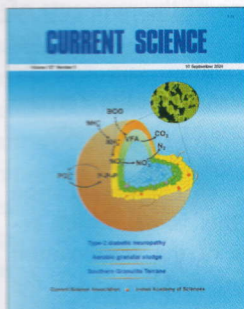

BOOK REVIEWS

629 Anecdotes from the History of Modern Computing. V. Rajaraman; *reviewed by* D. Balasubramanian

630 Experimental Techniques in Physics and Materials Science: Principles and Methodologies. R. Srinivasan, T. G. Ganesh, G. Umesh and C. S. Sundar; *reviewed by* Milan K. Sanyal
