"In the age of digital transformation, integrating robust cybersecurity measures with comprehensive cyber liability insurance is no longer optional-it is a modern imperative."

H. R. Gangwal  
General Manager  
United India Insurance Co. Ltd.

"The role of AI and ML is to identify and quickly resolve the issues and challenges the insurance sector has been facing for years. In commercial insurance, AI and ML can help improve operational areas, from automated underwriting to fraud prevention and seamless claims processing."

Aditya Dadia  
Founder Alwrite

"As digital adoption deepens and customer expectations evolve, claims will remain the ultimate test of value for insurance. By using AI to transform the claims experience, InsurTechs are strengthening that promise with intelligent systems."

Saurabh Tiwari
